Wéi eng Bestellung funktionnéiert

01

Wielt e Service

Wielt aus der Lëscht oder frot den Assistent. De Präis an d'Konditioune sinn op der Säit ier Dir mat iergendeen schwätzt.

02

Genehmegt de Kader

Etapp 1 ass e schréftleche Kontur vun deem wat gebaut gëtt. Dëst ass déi eenzeg Etapp wou Versiounen abegraff sinn.

03

Mir bauen a poléieren

Dir verfollegt de Fortschrëtt op engem Virschau Link. Design polnesche verfeinert de guttgeheescht Kader an ersetzt et net.

04

Bezuelt voll, kritt dann

D'Dateie ginn iwwerginn an d'Hosting geet live wann d'Gläichgewiicht Null erreecht. USDT an USDC ginn ugeholl.

D'Regelen

Bezuelt voll virun Liwwerung

Kee Site gëtt iwwerginn a kee Hosting gëtt ageschalt bis d'Bestellung voll bezuelt ass.

D'Revisiounen enden op der 1. Etapp

Ännert de Kader wéi Dir wëllt ier et guttgeheescht gëtt. Eng Revisioun duerno zielt als en neie Service.

Domain Käschten sinn getrennt

Präisser enthalen ni den Domain. Dir registréiert et an Ärem eegenen Numm, also bleift et ären.

Startpräisser. Domain Käschten net abegraff. Bezuelung an USDT oder USDC. Voll Bezuelung ass virum Iwwerreechung. Allgemeng Konditioune

Websäiten a Landung Säiten

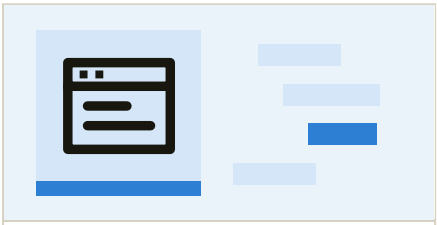

Säiten déi Äert Geschäft erklären a Client Ufroe bréngen.
